

Ambience Hardwood Shutter

Product Information

The **Ambience Hardwood Shutter** features a light weight frame with a concealed aluminium control rod which allows for full closure of blades in two positions. This provides clear and uninterrupted visibility through the blades.

Available with elliptical blades in 64mm, 89mm and 114mm, painted shutters are made from finger jointed Poplar, coated using a polyurethane coating system. Stained shutters are made from basswood, which are stained and then coated using a nitro-cellulose lacquer system.

A range of functional, quality hardware is supplied with the Ambience Hardwood shutter, providing you with the complete package.
