Certification	ISO9001:2000				
Suitable Products	Curtains				

Care Instructions

Care Code 6

Regular care will minimise the need for additional cleaning. Gently vacuum with appropriate attachment. Always exercise caution when spot cleaning. Test cleaning on non-exposed surface. Avoid excessive rubbing and abrasion. Remove hooks rings and trims before cleaning. CLEANING POSSIBLE SHRINKAGE 3%. **Drycleaning:** Use specialist curtain drycleaners as recognised by the Soft Furnishings Industry Association of Australia Inc. For perchlorethylene. Solvent temperature 18 - 20o C, no moisture, gently cycle, moderate (approx 50% capacity) loading minimise mechanical action. One bath Drycleaning Procedure: 3 minutes passing through the filter, reduced mechanical action, 2 minutes drain to tank or still, 2 minutes extract to tank or still. Two Stage Drying Procedure: 25 minutes drying at 55o C, then 6 minutes drying at 35o C. Deodorise 6 minutes or until curtains are cool. For white Spirit or Hydrocarbon. Standard Drycleaning practices are appropriate. Hang curtains upon removal from machine. Do not iron/press coated side. Warm iron/press on fabric side only. **Washing:** Curtains are heavy when wet. Professional we cleaning recommended. **DO NOT WASH IN DOMESTIC WASHING MACHINE.** Hand wash in cool to warm water (max 40o C) Mild detergents such as wool mixes are recommended. Do not bleach, soak, rub or wring. Drip dry in shade. Do not tumble dry. Hang curtains by their hooks to avoid coated sides touching. Do not use pegs. Do not fold curtains over clothes lines. Do not iron/press coated sides. Warm iron/press on fabric side only. Please note that the silicon finish can be cleaned with a damp cloth on the coated side. *For detailed code of practice for cleaning coated fabrics. Drycleaners are encouraged to contact the DIA.
